INTRODUCTION

This ebook teaches beginners how to find winning products, build a professional Shopify store, and run profitable ads using Dropship.io. You will learn practical methods for choosing products that actually sell and avoiding common beginner mistakes.

CHAPTER 1 - UNDERSTANDING DROPSHIPPING

Dropshipping is a business model where customers place orders in your online store and suppliers ship the products directly to the customer. You do not need inventory or a warehouse.

CHAPTER 2 - CREATING YOUR DROPSHIP.IO ACCOUNT

Visit Dropship.io and create your account. Focus on the Winning Products, TikTok Products, and Stores sections to research profitable products.

CHAPTER 3 - CHOOSING THE RIGHT NICHE

Best beginner niches include beauty products, fitness products, home gadgets, and pet products. Choose one niche and build a focused store around it.

CHAPTER 4 - HOW TO FIND A WINNING PRODUCT

Use filters such as high orders, low competition, and rising trends. A winning product should solve a problem, be easy to understand, and create a strong emotional reaction.

CHAPTER 5 - HOW TO SPY ON COMPETITORS

Study competitor stores, TikTok videos, Facebook ads, and customer comments. High engagement often means strong demand.

CHAPTER 6 - COPYING PRODUCT LINKS

Use supplier links from AliExpress, Zendrop, CJ Dropshipping, or Alibaba. Copy the supplier link and import the product into Shopify.

CHAPTER 7 - BUILDING YOUR STORE

Create a Shopify store and install useful apps like DSers, Zendrop, Judge.me, and Shopify Inbox.

CHAPTER 8 - IMPORTING PRODUCTS

Paste the supplier product link into DSers or Zendrop and import the product into your store. Always edit the product title and description professionally.

CHAPTER 9 - PRICING YOUR PRODUCTS

Use profitable pricing. Example: If a product costs \$10, you can sell it for \$29.99 or more depending on the niche.

CHAPTER 10 - WHERE TO RUN ADS

Run ads on TikTok Ads, Facebook Ads, and Instagram Reels. TikTok is excellent for viral growth and beginner-friendly marketing.

CHAPTER 11 - HOW TO CREATE ADS THAT SELL

Use attention-grabbing hooks in the first 3 seconds. Show the problem, introduce the solution, and end with a strong call to action.

CHAPTER 12 - BEST FREE TOOLS

Use CapCut for video editing and Canva for banners, thumbnails, and graphics.

CHAPTER 13 - DAILY ROUTINE FOR BEGINNERS

Research products daily, create short videos consistently, test ads with small budgets, and scale winning products.

CHAPTER 14 - BIGGEST BEGINNER MISTAKES

Avoid poor store designs, random products, weak videos, and copying supplier descriptions directly.

CHAPTER 15 - PRODUCTS MOST LIKELY TO SELL FAST

Popular categories include waist trainers, portable blenders, hair growth rollers, teeth whitening kits, and mini vacuum cleaners.
